

Blackpool Victoria Hospital Emergency Department

Monthly Bulletin: April 2010 to March 2011

This bulletin provides a breakdown of all attendances¹ at Blackpool Victoria Hospital Emergency Department (ED) between April 2010 and March 2011.

Between April 2010 and March 2011 there were 83,049 attendances to Blackpool Victoria Hospital ED. The month with the highest attendance was May with 8,282 attendances (**Figure 1**). There were more male than female attendances presenting at Blackpool Victoria Hospital ED (males=42,965; 52%).

Figure 2 illustrates age group of ED attendances for each month. The majority (31%) of ED attendances were aged 30-59 (n=25,972) or over 60 years old (n=25,877). Most ED attendances were self-referred (46%) or referred by an emergency call/ambulance (39%) (**Table 1**).

Table 2 details the injury group of ED attendances. The majority (90%) of attendances were recorded as other (Including other injury and medical attendances). Sports injury accounted for 3% of attendances, assaults 3% and road traffic collisions (RTCs) 2%.

Table 3 shows the location of incident for ED attendances. It shows that almost six in ten (59%) of incidents occurred in the home, and nearly a fifth (18%) occurred in public places.

The discharge destination for ED attendances is displayed in **Table 4**. It indicates that over half (54%) of attendances were discharged. Almost three in ten (29%) of attendances were admitted into hospital and 10% were referred.

Assault attendances

Between April 2010 and March 2011 there were 2,116 assault attendances to Blackpool Victoria Hospital ED. The month with the highest attendance was July with 220 attendances (**Figure 3**). There were more male than female assault attendances presenting at Blackpool Victoria Hospital ED (males=1,546; 73%).

Table 5 details the age group of assault attendances for each month. The majority of ED assault attendances were aged 15-29 (n=1,158; 55%) and 38% were 30-59 years old (n=810).

Table 6 shows the location of incident for assault attendances. It shows just under half (46%) occurred in a public place, with a quarter (25%) occurring in the home.

Table 7 illustrates the general discharge destination for assault attendances to Blackpool Victoria Hospital ED. Half (50%) were discharged without follow-up treatment, 29% required follow-up treatment. One in twenty (5%) assault attendances were admitted to hospital.

^{*} In December 2010, the overdose injury group was removed due to a change in the ED's IT system. Since this time, cases have been categorised into one of the other injury groupings (e.g. 'other injury' / 'deliberate self-harm'). Such cases are however identifiable via another data field, 'presenting complaint'. Where injury group is recorded as 'other injury' and 'presenting complaint' is recorded as overdose/poisoning these cases have been categorised in this table as overdose/poisoning. Please note, during this period, 19 DSH cases also had overdose/poisoning recorded as their presenting complaint.

Website: www.tiig.info (please note data requests should be made through the website)

¹For other EDs, TIIG reports on injuries only. However, this report includes all attendances at Blackpool Victoria Hospital ED. This is due to the medical and injury attendances being categorised within the patient group 'other'.

² GP=general practitioner, LA=local authority and FCMS=Flyde Coast Medical Services Ltd

³ Please note that all numbers less than five have been suppressed (with ***) in line with patient confidentiality; and if there is only one number less than five in a category then two numbers will be suppressed to prevent back calculations from totals.

⁴ Please note percentages might not add to one hundred due to rounding.

⁵ The decrease in figures for November and December for some fields is due to a change in IT system at Blackpool Victoria Hospital ED. This has led to certain fields being no longer collected.

⁶ Due to low numbers firework injuries (n=32) have been included under "other".

⁷ For previous months please refer to 'January to December 2010' monthly bulletin report available at www.tiig.info.
