Ormskirk Paediatric Accident and Emergency department and Minor Injuries Unit

Monthly Bulletin: April 2007 to March 2008

This bulletin provides a breakdown of all trauma¹ attendances at Ormskirk Paediatric Accident and Emergency (A&E) department and Minor Injury Unit between April 2007 and March 2008.

Figure 1 illustrates the number of trauma attendances by month of attendance. Trauma attendance peaked in April, with December having the least number of trauma attendances.

Figure 1: Total number of trauma attendances by month, April 2007 to March 2008

Figure 2 illustrates trauma attendances by gender. For all months there were more male trauma attendances than female presenting at Ormskirk Paediatric A&E department and Minor Injury Unit.

Figure 2: Gender of trauma attendances by month, April 2007 to March 2008

¹Trauma refers to all A&E attendances presenting as a result of an intentional or unintentional injury.

Figure 3 presents the age group of trauma attendances. Across the whole year four in ten trauma attendances were made by people under the age of 15 years.

Figure 3: Age group of trauma attendances by month, April 2007 to March 2008

Table I details the injury group of trauma attendances. The most common cause of injury was by 'other' accident (89%). Of those attendances where an injury group was specified 45% were sports injuries and 43% were road traffic accidents.

Table I: Trauma attendances by injury group, April 2007 to March 2008

| Injury group | Apr | May | Jun | Jul | Aug | Sep | Oct | Nov | Dec | Jan | Feb | Mar | Total | % |
|-----------------------|------|------|------|------|------|------|------|------|------|------|------|------|-------|-----|
| Other accident | 1546 | 1535 | 1412 | 1148 | 1209 | 1228 | 1263 | 1105 | 913 | 1001 | 1083 | 1165 | 14608 | 89 |
| Sports injury | 49 | 47 | 68 | 41 | 55 | 106 | 94 | 85 | 40 | 68 | 101 | 62 | 816 | 5 |
| Road traffic accident | 69 | 63 | 74 | 101 | 70 | 74 | 59 | 58 | 73 | 58 | 39 | 42 | 780 | 5 |
| Assault | 25 | 21 | 17 | 17 | 13 | 22 | 14 | 12 | 7 | 8 | 13 | 8 | 177 | I |
| Deliberate self-harm | 0 | 4 | 6 | 4 | 5 | 2 | 5 | 3 | 12 | 6 | 4 | 0 | 51 | 0 |
| Firework injury | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 |
| Total | 1689 | 1670 | 1577 | 1311 | 1352 | 1432 | 1435 | 1263 | 1045 | 1141 | 1240 | 1277 | 16432 | 100 |

Table 2 illustrates the source of referral for patients presenting with trauma injuries. The primary source of referral for trauma attendances identified was self referral (46%).

Table 2: Trauma attendances by source of referral, April 2007 to March 2008

| Source of referral | Apr | May | Jun | Jul | Aug | Sep | Oct | Nov | Dec | Jan | Feb | Mar | Total | % |
|---------------------------------|------|------|------|------|------|------|------|------|------|------|------|------|-------|-----|
| Self referral | 659 | 676 | 709 | 638 | 725 | 659 | 683 | 609 | 540 | 590 | 557 | 518 | 7563 | 46 |
| Other | 770 | 730 | 667 | 532 | 480 | 591 | 570 | 510 | 392 | 444 | 516 | 598 | 6800 | 41 |
| Health care provider | 199 | 186 | 172 | 124 | 119 | 153 | 161 | 120 | 93 | 91 | 148 | 140 | 1706 | 10 |
| Educational establishment | 23 | 58 | 10 | 2 | 0 | 6 | 5 | П | 7 | 4 | 4 | 0 | 130 | I |
